TOWARDS NEW HORIZONS

The name SHARJAH has become a synonym of culture due to the tremendous efforts put together by various bodies under the wise leadership of His Highness Dr. Shaikh Sultan bin Mohammad Al Qasimi, the Member of Supreme Council and Ruler of Sharjah. Numerous cultural activities taking place in and out of the emirate throughout the year, for the last many years, covering all aspects of culture, such as education, fine art, heritage, archaeology, folklore, history, literature, theatre, publishing, so and so on have made Sharjah a cultural hub of the Middle East. The city is known as a platform showcasing several global cultural products.

The Department of Culture & Information plays its vital role as a care taker. Many activities were initiated by the Department and Sharjah International Book Fair is one of the most successful one amongst them. The event was initiated in 1982 with the patronage and guidance of His Highness Sh. Dr Sultan bin Mohammad Al Qasimi, the Supreme Council Member and Ruler of Sharjah. The goal is to cultivate and promote the habit of reading, which, as per His Highness, is the best way to achieve the inevitable cultural awareness and harmony.

In consideration of the importance of foreign language, especially in today's globally expanding world of technology, special care has been taken to promote and expand foreign language participation in the Fair. This year we have a 20% increase in foreign language participation.

We take this opportunity to thank all those who supported us continuously for the last many years in maintaining the success of Sharjah International Book Fairs.

With best wishes,

SHARJAH INTERNATIONAL BOOK FAIR
